REACCREDITED BY NAAC WITH A GRADE (CGPA 3.33)
ISO 9001-2015 CERTIFIED

**ANTI-NARCOTICS CELL
ANNUAL REPORT
2020-2021**

Name of the coordinators

For the year 2020-2021, we have two coordinators for this cell –Dr.Cicily Pearly Alex, Associate Professor and HOD Physical education and Dr.Raji Mohan, Assistant Professor ,PG Department of Commerce and Research centre.

Introduction

Anti narcotics cell has been instituted in the 2018-2019 under the directions of the Kerala state Government.The anti-drugs cell of the college has been constituted to ensure a drug- free campus by imposing a total ban on the possession or consumption or use of drugs and alcohol by students of the college, within or outside the campus/hostels.

The duties of the anti-drugs cell include organizing awareness programs in the college and hostels and public in general with the help of government authorized agencies/ organizations. Educating the students about the ill-effects of drugs and alcohol, encouraging peer policing among students against the use of drugs and reporting of any noticed use of drugs by the students to the students' affairs committee are the duties of the anti-drugs cell. An effective vigilant committee has been constituted in order to execute the functions of the cell and also to impart an awareness campaign against use of drugs in the campus. Due to covid situation students could not take part in campus related anti drugs activities and hence the cell used online facilities to bring awareness to larger population of student community ranging from school students to college students.

Objectives

- To create awareness among student community about the ill effects of substance abuse.
- To spread awareness to ensure a drug/ substance free campus.
- To engage the students in anti- drug activities and educating them about the ill-effects.
- Motivate students to become volunteers of anti-drug activities in their life.
- Ensure that there arises no case related to use of any substance in college students.

Relevance

It is very relevant among youth as they are easy prey for substance abuse. Irrespective of gender students fall prey for abuse and substance intake. Since the society as a whole is concerned with drugs and other substances its time that we give proper awareness among our students too. An effective vigilant committee has been constituted in order to execute the functions of the cell and also to impart an awareness campaign against use of drugs.

Schedule & methods

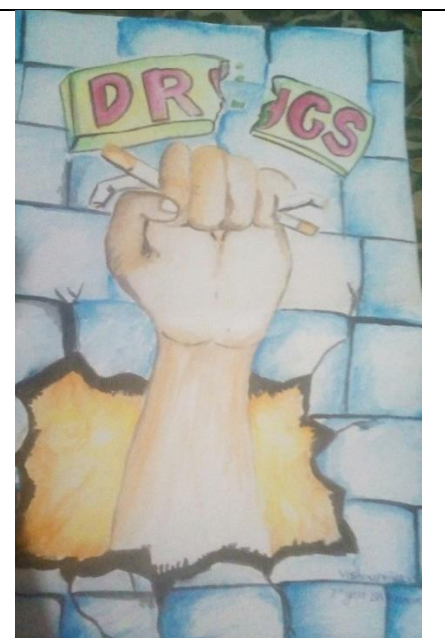

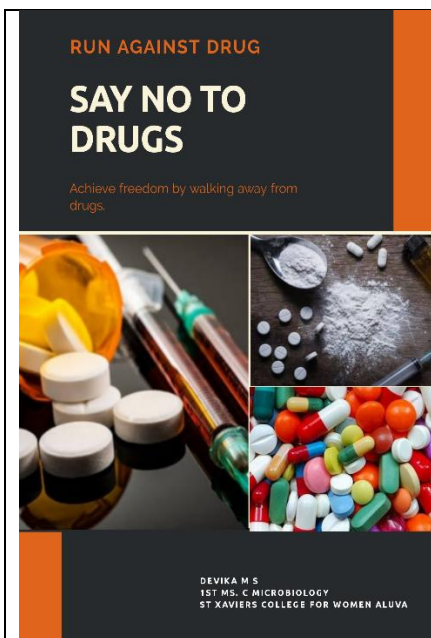

Since it was covid situation , there was very little offline interaction between students and teachers and so mostly programmes were done online.

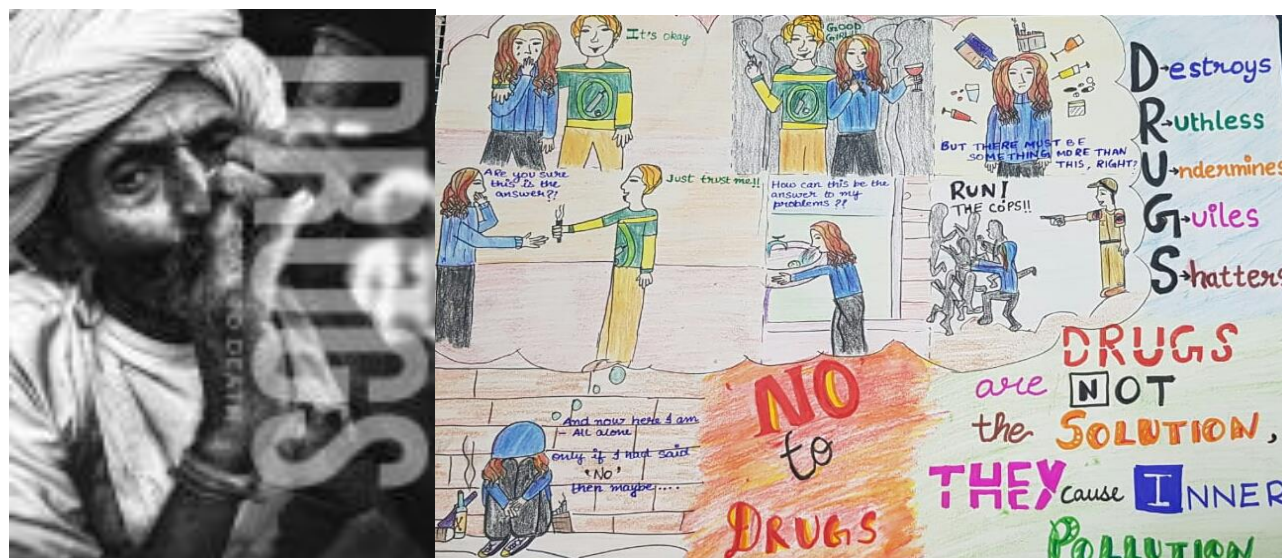

The methods adopted included an online quiz competition which was done in parts which was repeated in even and odd semester and participants were given certificates.

The next method to increase awareness among student community was to hold a poster competition for students and make them aware of the dangers of the substance abuse. It was also conducted online and there were many participants too.

Detailed report with photo

Anti- narcotics Cell organised a poster competition on the topic “Say no to drugs” for College as well as school students in order to create awareness among them. Students across schools and colleges enthusiastically participated and 6 of them got certificates. It was kept open till 30 th May 2020.

Outcome of the activity

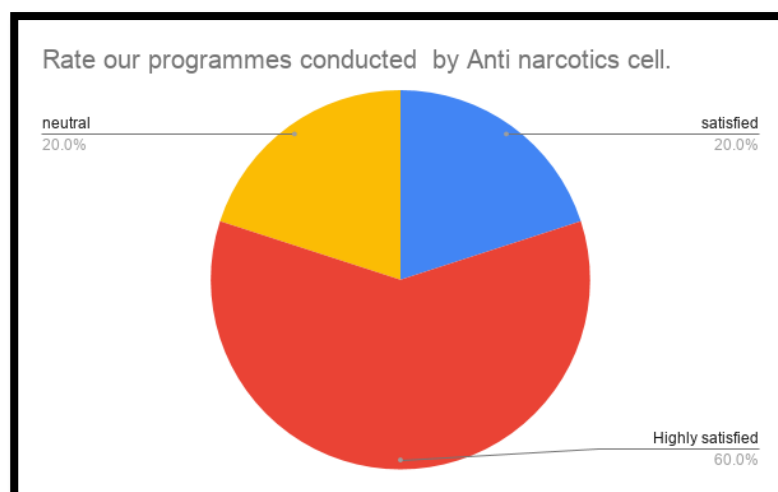

Students ranging from school to colleges to university students took part in the event and students were able to analyse and come up with different thoughts and ideas that portrayed substance abuse of its dangers and evils it can do in the society.

Name and number of participants

There were total 6 participants and they are as follows

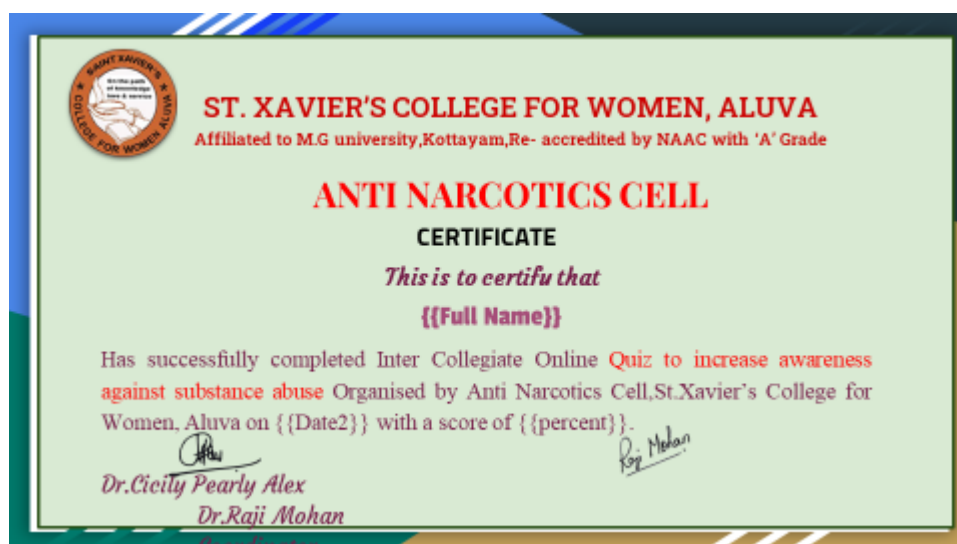

- 1.Devika M.S 1st M.Sc. Microbiology, St. Xavier's College for Women, Aluva.

Count of Please rate our programmes by selecting the opinion from below [Online quiz competition]

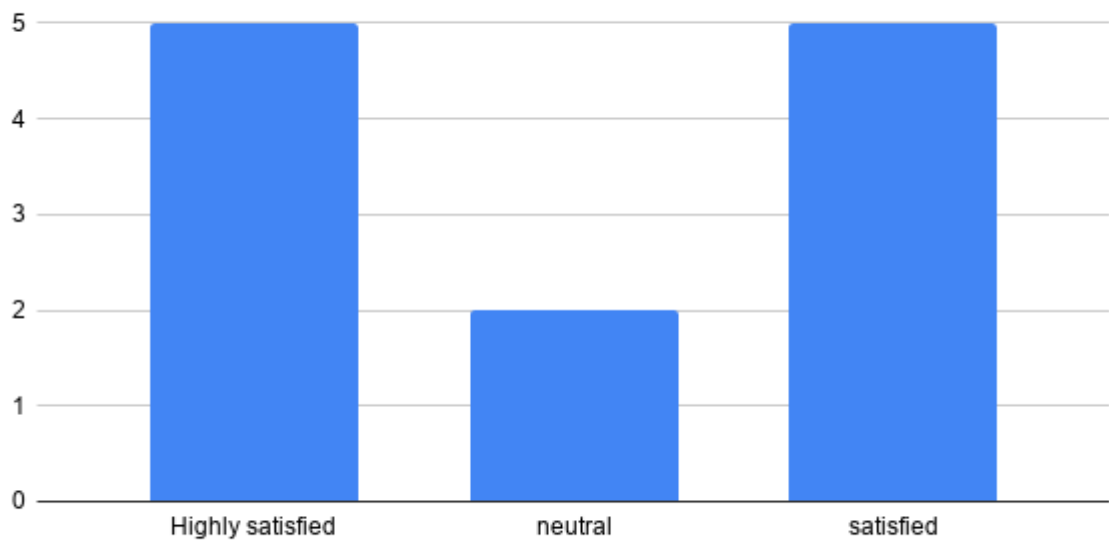

Outcome of the Activity-Students could understand their level of awareness

Evaluation (by in charge)

Since it was covid situation activities could only be done online although we overcame difficulties and were able to reach to masses, campus activities were restricted. Flash mobs, awareness drama and classes could also be undertaken if the situation was different. Too many restrictions and government regulations were on place and this did have an impact on the activities of the cell.

Comments from other faculties-

Count of teachers rating (antinarcotics cell)

Count of teachers rating (antinarcotics cell)

Perception among students and faculties

Perception among students and teachers towards anti-narcotics cell is very positive. Teachers and students enthusiastically participated in events and made it a great success.

Extension activities

This year’s both activities were extension activities as we did not restrict the entry of participants to our college only but went to other student communities to get their idea and concepts on substance abuse.
